

AKH-0.66/TD Current Transformer

Application

AC current measurement in low-voltage power systems.

Designed for connection to compatible energy meters and measuring instruments.

Basic Parameters

Models: TD-50III, TD-80III, TD-Phi60 and TD-Phi70.

Primary current: 200-1600A, depending on model and output.

Secondary output: 20mA, 50mA, 5A or 1A, depending on model.

Accuracy: Class 0.2.

Rated working voltage: AC 0.66kV.

Rated frequency: 50/60Hz.

Product Feature

The AKH-0.66/TD series is available in square-aperture and round-aperture structures. It provides a precision current signal for compatible electrical measuring equipment, with compact fixed installation and model-specific 20mA, 50mA, 5A or 1A secondary output.

Model Selection

TD-50III; 300-800A; 20mA / 5A / 1A; Class 0.2; 52x30 mm

TD-80III; 600-1600A; 20mA / 5A / 1A; Class 0.2; 82x32 mm

TD-Phi60; 300-1000A; 20mA / 50mA / 5A / 1A; Class 0.2; Dia. 60 mm

TD-Phi70; 200-1200A; 20mA / 5A / 1A; Class 0.2; Dia. 73 mm
